~~Delivering results to the public is a top priority for the Government of the United Kingdom. The public has a right to know what the Government is doing, and to be able to hold it to account. The Government is committed to transparency and to making the most of the information it holds. This is why we have introduced the Freedom of Information Act, which gives the public the right to access information held by the Government. The Act is a landmark piece of legislation, and it is a testament to the Government's commitment to transparency and to making the most of the information it holds.
